

Personal Spiritual Profile

- Use an ordinary white sheet of computer paper
- Glue or tape a picture of yourself in the center of the page
- Choose a passage of scripture that is personally meaningful to you, and type it out on computer paper using a fairly large font. Print it and paste it.
- Type out (or neatly hand write) a short testimony stating when you became a Christian, (or when you began considering issues of faith) what your faith means to you, and what your hope is for the future.
- Around your picture, write words that describe your spiritual gifts and your physical talents. (Make these words bold and colourful).
- Mount the white sheet on a sheet of construction paper so that the colour makes a border around the white sheet.
