

World History Themes

Identify the nine themes of world history from your textbook. Understanding these themes will allow you to more easily organize and understand global processes in world history.

Directions

- Skim through your textbook and find one specific example of each of the themes making sure to span the entire text. Record results in the chart provided.
- Then, look through the magazines in the classroom. Find pictures that represent these themes in history. Cut out the pictures and glue on to blank paper. On the back, indicate which theme you think this represents and why.
